INDEX TO VOLUME 26

Authors

Ball, M.—See Hunter, G.

Bernard, R.—See Marier, G.

Campbell, J. J. R. and Konowalchuk, J.—Comparison of "drop" and "pour" plate counts of bacteria in raw milk, 327.

Cross, E. M.—See Patrick, S. J.

Dowding, E. S.—The spores of Histoplasma, 265.

Elliott, K. A. C.—See Webb, J. L.

Firlotte, W. R.—See Miller, M. J.

Gagnon, A.—See Lowenthal, J.

Gingras, R.—See Pagé, E.

Hay, E. C., Prado, J. L., and Selye, H.—The diet and hormonally induced nephrosclerosis, 212.

Heagy, F. C.—The use of polyvinyl alcohol in the colorimetric determination of magnesium in plasma or serum by means of Titan Yellow, 295.

Horner, R.—See Waud, R. A.

Hunter, G., Kastelic, J., and Ball, M.—Assessment of diets: analysis versus computation from food tables, 367. Assessment of hospital diets, 347.

Kastelic, J.—See Hunter, G.

Konowalchuk, J.—See Campbell, J. J. R.

Lowenthal, J. and Gagnon, A.—The inhibition of hyaluronidase by sodium salicylate and its possible metabolites, 200.

Macallum, A. B.—The potentiation of insulin by sulphones, 232.

McCarter, J. A. and Steljes, E. L.—Methods for the determination of the distribution of radioactive phosphorus among the phosphorus-containing constituents of tissues, 333.

McEachern, D.—See Tower, D. B.

McKercher, D. G.—See Reed, G. B.

MacPherson, C. F. C.—A method of typing Haemophilus influenzae by the precipitin reaction, 197.

Mainland, D.—Statistical methods in medical research. I. Qualitative statistics (enumeration data), 1.

Marier, G. and Bernard, R.—Etude des propriétés pharmacologiques de l'annotinine et de la lycopodine, 174.

Miller, M. J. and Firlotte, W. R.—Studies on amoebiasis in Canada. Part II. A method for obtaining viable cysts of Entamoeba histolytica free from bacteria, 299.

Noble, R. L.—The effect of barbiturates and other substances on motion sickness in dogs, 283.

Pagé, E. and Gingras, R.—Glycosuria in phlorizinized rats depleted of pyridoxine, 206.

Patrick, S. J. and Cross, E. M.—Some effects of the administration of thorium nitrate to mice, 303.

Polley, J. R.—The microdetermination of sodium, potassium, calcium, and chloride in a single plasma sample, 188.

Prado, J. L.—See Hay, E. C.

Reed, G. B. and McKercher, D. G.—Surface growth of bacteria on cellophane, 330.
See Reed, R. W.

Reed, R. W. and Reed, G. B.—"Drop plate" method of counting viable bacteria, 317.

Selye, H.—See Hay, E. C.

Smith, G. F. M.—See Whillans, M. G.

Steljes, E. L.—See McCarter, J. A.

Strugger, S.—Fluorescence microscope examination of trypanosomes in blood, 229.

Tower, D. B. and McEachern, D.—Experiences with the 'Venus' heart method for determining acetylcholine, 183.

Waud, R. A. and Horner, R.—The treatment of phosgene poisoning with tracheotomy and suction, 167.

Webb, J. L. and Elliott, K. A. C.—The formation of acetate in brain tissue suspensions, 239.

Weld, C. B.—Fat absorption and lung oil, 274.

Whillans, M. G. and Smith, G. F. M.—The ingestion of sea water as a means of attenuating fresh water rations, 250.

SECTION E

INDEX TO VOLUME 26

Subjects

Acetate, Formation of, in brain tissue suspensions, 239.

Acetylcholine, 'Venus' heart method for determination of, 183.

Alcohol, Polyvinyl, Use of, in determination of magnesium in plasma or serum, 295.

Amoebiasis, Method for obtaining viable cysts of Entamoeba histolytica free from bacteria, 299.

Annotinine, Pharmacological properties of, 174.

Bacteria
- Comparison of "drop" and "pour" plate counts of, in raw milk, 327.
- Growth of, on cellophane, 330.
- Method of obtaining viable cysts of Entamoeba histolytica free from, 299.
- Viable, "Drop plate" method of counting, 317.

Barbiturates, Effect of, on motion sickness in dogs, 283.

Blood, Fluorescence microscope examination of trypanosomes in, 229.

Brain tissue suspensions, Formation of acetate in, 239.

Calcium, Microdetermination of, in single plasma sample, 188.

Cellophane, Growth of bacteria on, 330.

Chloride, Microdetermination of, in single plasma sample, 188.

Colorimetry, Use of polyvinyl alcohol in colorimetric determination of magnesium in plasma or serum, 295.

Cysts of Entamoeba histolytica free from bacteria, Method for obtaining, 299.

Diet(s)
- Analysis versus computation food tables in assessment of, 367.
- and hormonally induced nephrosclerosis, 212.
- Hospital, Assessment of, 347.

Dogs, Effect of barbiturates on motion sickness in, 283.

Entamoeba histolytica, Method of obtaining viable cysts of, free from bacteria, 299.

Fat absorption and lung oil, 274.

Fluorescence microscope examination of trypanosomes in blood, 229.

Food tables, Analysis versus computation from, in assessment of diets, 367.

Fresh water, Use of sea water as means of attenuating rations of, 250.

Glycosuria in phlorizinized rats depleted of pyridoxine, 206.

Growth of bacteria on cellophane, 330.

Haemophilus influenzae, Method of typing, by precipitin reaction, 197.

Heart of Venus mercenaria, Use of, for determining acetylcholine, 183.

Histoplasma, Spores of, 265.

Hormone(s), Diet and hormonally induced nephrosclerosis, 212.

Hospital diets, Assessment of, 347.

Hyaluronidase, Inhibition of, by sodium salicylate and its possible metabolites, 200.

Inhibition of hyaluronidase by sodium salicylate and its possible metabolites, 200.

Insulin, Potentiation of, by sulphones, 232.

Lung oil, Fat absorption and, 274.

Lycopodine, Pharmacological properties of 174.

Magnesium in plasma or serum, Use of polyvinyl alcohol in determining, 295.

Medical research, Statistical methods in. Qualitative statistics (enumeration data), 1.

Metabolites of sodium salicylate, Inhibition of hyaluronidase by, 200.

Mice, Effect of administration of thorium nitrate to, 303.

Microdetermination of sodium, potassium, calcium, and chloride in single plasma sample, 188.

Microscope, Fluorescence, Examination of trypanosomes in blood by, 229.

Milk, Raw, Comparison of "drop" and "pour" plate counts of bacteria in, 327.

Motion sickness in dogs, Effect of barbiturates on, 283.

Nephrosclerosis, Hormonally induced, Diet and, 212.

Nitrate, Thorium, Effects of administration of, to mice, 303.

Oil in lungs, Fat absorption and, 274.

Pharmacology, Pharmacological properties of annotinine and lycopodine, 174.

Phosgene poisoning, Treatment of, with tracheotomy and suction, 167.

Phosphorus, Radioactive, Methods for determining distribution of, in tissues, 333.

Plasma
Microdetermination of sodium, potassium, calcium, and chloride in a single sample of, 188.
Use of polyvinyl alcohol in determining magnesium in, 295.

Polyvinyl alcohol, Use of, in determining magnesium in plasma or serum, 295.

Potassium, Microdetermination of, in single plasma sample, 188.

Potentiation of insulin by sulphones, 232.

Precipitin reaction, Method of typing Haemophilus influenzae by, 197.

Pyridoxine, Glycosuria in phlorizinized rats depleted of, 206.

Radioactive phosphorus, Methods for determining distribution of, in tissues, 333.

Rats, Phlorizinized, depleted of pyridoxine, Glycosuria in, 206.

Sea water, Ingestion of, as means of attenuating fresh water rations, 250.

Serum, Use of polyvinyl alcohol in determining magnesium in, 295.

Sodium, Microdetermination of, in single plasma sample, 188.

Sodium salicylate and its possible metabolites, Inhibition of hyaluronidase by, 200.

Spores of Histoplasma, 265.

Statistic(s), Statistical methods in medical research. Qualitative statistics (enumeration data), 1.

Suction, Treatment of phosgene poisoning with, 167.

Sulphones, Potentiation of insulin by, 232.

Thorium nitrate, Effects of administration of, to mice, 303.

Tissue
Brain, Formation of acetate in suspensions of, 239.
Methods for determining distribution of radioactive phosphorus in, 333.

Titan Yellow, Use of polyvinyl alcohol in determining magnesium in plasma or serum by means of, 295.

Tracheotomy, Treatment of phosgene poisoning with, 167.

Trypanosomes in blood, Fluorescence microscope examination of, 229.

'Venus' heart method for determining acetylcholine, 183.

Water, Sea, used to attenuate fresh water rations, 250.
